About Codingal

Codingal offers online classes for K-12 students to learn coding by creating apps, building games and developing websites.

We offer live 1:1 coding classes taught by all-star instructors with a computer science background.

Coding has been shown to have numerous benefits in multiple studies. According to one study, children's cognitive skills improved sevenfold with coding.

In addition to improving their computational abilities and logical thinking, coding improves their writing skills as well.

As a result, kids who begin coding at a young age will have a definite advantage.

Our Mission

To inspire kids to fall in love with coding

Founder's Note

Block

Teaching coding to kids is a huge responsibility. Our teachers and curriculum ensure we understand and own this fully.

Vivek Prakash

Co-founder & CEO
B.Tech & M.Tech, IIT Roorkee

Learning to code is not just about becoming a computer scientist. Coding empowers children at multiple levels.

Satyam Baranwal

Co-founder & COO
B.Tech, IIT Dhanbad

Coding empowers kids to become innovators of the future

Bl

Why should kids learn coding?

Coding is the new literacy.

In recent years, technology has made inroads into all aspects of our lives. We've come to rely on websites, apps and gadgets to help us through the day, be it at work or at home.

Given the enormous role technology is going to play in the future, teaching kids to code is the best way to prepare them for success.

What are the benefits of learning coding?

- Helps develop problem solving skills
- Boosts analytical and structural thinking abilities
- Enhances creativity and imagination
- Helps find innovative solutions to real-life issues
- Helps develop resilience

Why this curriculum?

- Accredited by STEM.org
- Rated 4.6 out of 5 by students and parents
- Based on BIDE (Broad, Inspiring, Deep and Efficient) model
- Focus on STEAM (Science, Technology, Engineering, Arts, Math) subjects
- Enhances cognitive, logical, and computational skills
- Makes learning highly effective, interactive, and fun

Foundation of our curriculum

Accredited by

BLOOM

Bloom's Taxonomy is a standard guideline for K-12 content development, which includes 6 stages of learning: Remember, understand, apply, analyze, evaluate and create.

BIDE

The BIDE (Broad, Inspiring, Deep and Efficient) model has been developed by Codingal in-house to ensure that our curriculum caters to the unique learning style of every child.

STEAM

STEAM is an approach to learning that uses Science, Technology, Engineering, the Arts and Mathematics as access points for guiding student inquiry, dialogue, and critical thinking.

Covers K-12 Computer Science Framework compliant

Enhance Your Math and Science Concepts with Codingal

Bl

Microscope

Codingal's mission is to provide students with the skills and mindset required to thrive in the twenty-first century. Our curriculum aims to help kids understand math and science through coding in an interactive and fun way.

Our coding courses are engineered to cover essential science and math concepts like integers, solar system, microorganisms, geometry, water cycle, etc., in a way that these concepts are imprinted on the kid's memory forever.

Calculator

Our teachers provide individual attention to kids, customize projects based on their interests and make them fall in love with Coding, Math, and Science.

Game Development course- Overview (1)

"A perfect course for kids who want to master the art of coding and create engaging games."

36 Classes
50+ Projects
36 Quizzes

Key learnings

- ✓ Game development
- ✓ Complex programming topics
- ✓ Coding fundamentals
- ✓ Fundamental programming principles

Achievements

- ✓ Conceptual clarity
- ✓ Analytical skills
- ✓ Confidence boost
- ✓ Game development

Featured Projects

Integer game

Create a game to learn about integers using a number line.

Car game

Create your own version of car racing game using functions. The car would crash if you touch the obstacle.

Module 1

Basic Animation development

Learn basic concepts like Loops and Conditionals. Problem solving skills and logical development.

Language:
Block based
Platform:
Scratch

6 Lessons & 15+ Projects

Dress up
Tera

Solar
System

Module 2

Game design - I

Get introduced to coordinates and broadcast while making fun games like Mario Dash.

Language:
Block based
Platform:
Scratch

6 Lessons & 10+ Projects

Happy balls

Mario dash

Scratch Developer Certificate

Module 3

Game design - II

Understand interlinking concepts with the help of broadcast and cloning in game.

Language:
Block based
Platform:
Scratch

6 Lessons & 10+ Projects

Hungry
casey

Snake
game

Game Development course- Overview (2)

Module 4

Advance Game design

Learn advanced animation effects and games like Pacman game.

Language:
Block based

Platform:
Scratch

6 Lessons & 10+ Projects

Pacman

Microscope

Advance Animation and Game Developer Certificate

Module 5

Game development

Learn basic programming concepts while designing games in Game Lab.

Language:
Block based

Platform:
Code.org (Game Lab)

6 Lessons & 15+ Projects

Catch me

Space
adventure

Module 6

Advance Game development

Learn functional and complex programming along with velocity and collision detection.

Language:
Block based

Platform:
Advance Game development

6 Lessons & 10+ Projects

Collision
with Gillu

Save the
Cow

Game Developer Certificate

Top 10 benefits of learning at Codingal

1. Regular PTM

Great opportunity for parents and teachers to open two-way communication and to share insights and information for the holistic development of a child.

2. Regular doubt session

After every module solve all your queries in this personalized session. The toughest problems addressed – concepts revised and doubts cleared!

3. Engaging quizzes

Quizzes are fun and help us remember important facts. These well-targeted and tailor-made quizzes will boost self-esteem and confidence among kids.

4. Thrilling competitions

Regular competitions are conducted to encourage students to showcase their skills and develop their ideas.

5. Learning Certificates

Show the world what you can do with a certificate for every amazing skill you master.

Top 10 benefits of learning at Codingal

6. Live personalized classes

Understand concepts faster with personal attention from teachers. Learn coding from highly qualified teachers trained to make learning effective and impactful.

7. Lifetime access to class videos

Forgot what was taught in the last class? No worries. Watch the recorded class video anytime to refresh your memory.

8. Lifetime access to resources

Get lifetime access to our exclusive learning content including DIY sheets, videos, and other resources.

9. Gamified learning

Codingal makes learning fun with gamification. Students can take quizzes or complete projects to earn points, badges, and rewards.

10. Community of young coders

Get access to our community of 150,000+ students to collaborate, share projects and solve real-world problems together.

Students and parents love Codingal

Renee Jose

Codingal Student

Thanks to Codingal and my teacher. I am learning to code in a very engaging manner.

Greg Cook

Codingal Student

My teacher gives very clear instruction. With game development course by Codingal, I can create my own games.

Kira Grant

Codingal Student

I recently joined Codingal's Game development course, and I look forward to attending my classes. I learn so many new things everyday.

Joel Jamal

Codingal Student

I am thoroughly enjoying my classes! The course content is interesting and helps me focus better. I feel more confident about coding and science now.

Coding- Gateway to success in the future

“

Now is a great time to be entering the coding world because technology will change more in the next 10 years than it has in the last 50.

- Bill Gates

“

Whether you want to uncover the secrets of the universe, or you just want to pursue a career in the 21st century, basic computer programming is an essential skill to learn.”

- Stephen Hawking
