

Codingal
Where kids love coding

Grade 6

Hello ! Young Coders

Get ready to Fall in love with coding

Accredited by

About Codingal

Codingal offers online classes for K-12 students to learn coding by creating apps, building games and developing websites.

We offer live coding classes taught by all-star instructors with a computer science background.

Coding has been shown to have numerous benefits in multiple studies. According to one study, children's cognitive skills improved sevenfold with coding.

In addition to improving their computational abilities and logical thinking, coding improves their writing skills as well.

As a result, kids who begin coding at a young age will have a definite advantage.

Our Mission

To inspire kids to fall in love with coding

Founder's Note

Teaching coding to kids is a huge responsibility. Our teachers and curriculum ensure we understand and own this fully.

Vivek Prakash

Co-founder & CEO
B.Tech & M.Tech, IIT Roorkee

Learning to code is not just about becoming a computer scientist. Coding empowers children at multiple levels.

Satyam Baranwal

Co-founder & COO
B.Tech, IIT Dhanbad

Codingal empowers kids to become innovators of the future

Why should kids learn coding?

Coding is the new literacy.

In recent years, technology has made inroads into all aspects of our lives. We've come to rely on websites, apps and gadgets to help us through the day, be it at work or at home.

Given the enormous role technology is going to play in the future, teaching kids to code is the best way to prepare them for success.

What are the benefits of learning coding?

- Helps develop problem solving skills
- Boosts analytical and structural thinking abilities
- Enhances creativity and imagination
- Helps find innovative solutions to real-life issues
- Helps develop resilience

Why this curriculum?

- Accredited by STEM.org
- Rated 4.6 out of 5 by students and parents
- Based on BIDE (Broad, Inspiring, Deep and Efficient) model
- Focus on STEAM (Science, Technology, Engineering, Arts, Math) subjects
- Enhances cognitive, logical, and computational skills
- Makes learning highly effective, interactive, and fun

thinkable

Foundation of our curriculum

Accredited by

BLOOM

Bloom's Taxonomy is a standard guideline for K-12 content development, which includes 6 stages of learning: Remember, understand, apply, analyze, evaluate and create.

STEAM

STEAM is an approach to learning that uses Science, Technology, Engineering, the Arts and Mathematics as access points for guiding student inquiry, dialogue, and critical thinking.

BIDE

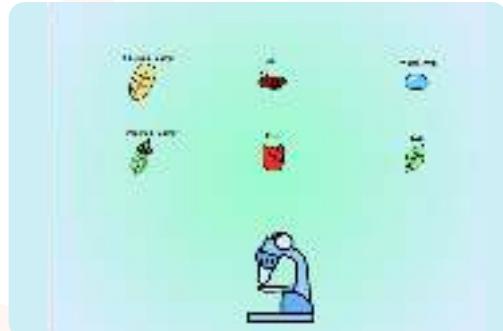

The BIDE (Broad, Inspiring, Deep and Efficient) model has been developed by Codingal in-house to ensure that our curriculum caters to the unique learning style of every child.

Covers K-12 Computer Science Framework compliant

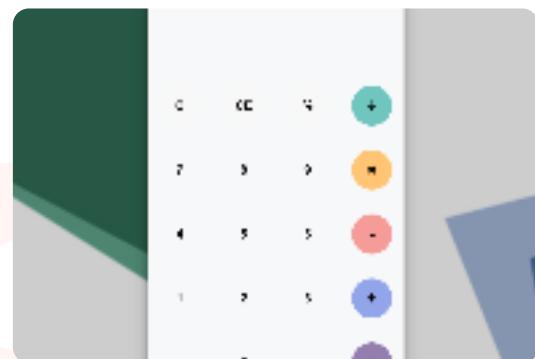

Enhance Your Math and Science Concepts with Codingal

Microscope

Codingal's mission is to provide students with the skills and mindset required to thrive in the twenty-first century. Our curriculum aims to help kids understand math and science through coding in an interactive and fun way.

Calculator

Our coding courses are engineered to cover essential science and math concepts like integers, solar system, microorganisms, geometry, water cycle, etc., in a way that these concepts are imprinted on the kid's memory forever.

Our teachers provide individual attention to kids, customize projects based on their interests and make them fall in love with Coding, Math, and Science.

Coding Prodigy- Overview (1)

A perfect course for kids who want to excel at coding and build complex applications and Websites.

96 Classes
184+ Projects
96 Quizzes

Key learnings

- ✓ Advance app development
- ✓ App publishing
- ✓ Advance website development

Achievements

- ✓ Logic Building
- ✓ Basic Web Development
- ✓ Introduction to JavaScript
- ✓ Capstone Project

Featured Projects

Integer Game

Combine coding and math with this fun integer game.

Microscope

Learn how to use science concepts with coding by creating a microscope.

Module 1 Game Design - I

Get introduced to coordinates and broadcast while making fun games like Mario Dash.

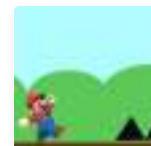

Language:
Block based

Platform:
Scratch

6 Lessons & 10+ Projects

KBC

Mario dash

Module 2 Game Design - II

Understand interlinking concepts with the help of Broadcast and Cloning in game.

Language:
Block based

Platform:
Scratch

6 Lessons & 10+ Projects

Integer game

Snake game

Module 3 Advanced Game Design

Learn advanced animation effects and games like Pacman game.

Language:
Block based

Platform:
Scratch

6 Lessons & 10+ Projects

Microscope

Pacman

Unlock Scratch Developer Certificate

Coding Prodigy- Overview (2)

Featured Projects

Donut Game

Learn to create a fun Android development game.

Messenger

Create a Whatsapp-like chat application using firebase.

Module 4

Artificial Intelligence

Get introduced to the magical world of Artificial Intelligence. Create an Image Recognizer project using block coding.

Language:
AI

Platform:
Machine Learning for Kids
6 Lessons & 10+ Projects

Mailman

Happy Sad Dog

Module 5

Machine Learning

Get introduced to speech recognition and Machine Learning.

Language:
AI

Platform:
Machine Learning for Kids
6 Lessons & 10+ Projects

Underfitting

Roaming

Module 6

Mobile App Development

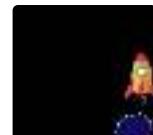

Introduction to basics of Application development. Create exciting games like Space Warriors.

Language:
Block Based

Platform:
Thunkable
6 Lessons & 10+ Projects

Image
recognizer

Space
warriors

Module 7

Utility Apps

Learn to create an application that can check the strength of your password.

Language:
Block Based

Platform:
Thunkable
6 Lessons & 10+ Projects

Mole mash

password
strength
checker

Unlock Basic Android Application Developer Certificate

Module 8

Native Applications

Learn how to build games and apps using cloud storage.

Language:
Block Based

Platform:
Thunkable
6 Lessons & 10+ Projects

Snap it

All in one
App

Coding Prodigy- Overview (3)

Featured Projects

Bootstrap Carousel

Use carousels to add slideshows of pictures to make your webpage more interactive.

Calculator

Create a standard calculator using HTML, CSS and Javascript.

Module 9 App Publishing

Learn how to pass data through Firebase and create exciting applications. Also publish your application on Play Store.

Language:
Block Based

Platform:
Thunkable

6 Lessons & 10+ Projects

Sign in
screen

Login App

Unlock Advance Android Application Developer Certificate

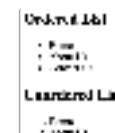

Module 10 Front-end Development

Learn about basics of web, and create your own webpages using HTML.

Language:
HTML

Platform:
Repl.it

6 Lessons & 20+ Projects

Lists

Table

Module 11 Webpage Styling

Learn to make your webpages more attractive by styling them using CSS.

Language:
CSS

Platform:
Repl.it

6 Lessons & 20+ Projects

Transform

Typography

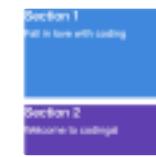

Module 12 Web App Development

Learn about bootstrap which will help to make the website responsive. Use numerous HTML and CSS templates for UI interface elements.

Language:
HTML CSS

Platform:
Repl.it

6 Lessons & 20+ Projects

Vertical
scrollspy

Container
Fluid

Unlock Web Developer Certificate

Coding Prodigy- Overview (4)

Module 13

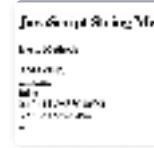

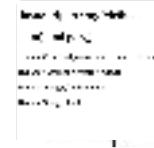

Advanced Front-end Development - I

Get introduced to JavaScript programming. Learn to add interactive behaviours to a webpage using Javascript.

Language:
HTML CSS JS

Platform:
Repl.it

6 Lessons & 20+ Projects

Methods in
JS

Methods in
array

Module 14

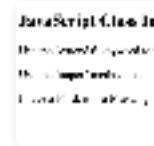

Advanced Front-end Development - II

Get ready to add extraordinary behaviours to your web pages through advance concepts of JavaScript.

Language:
HTML CSS JS

Platform:
Repl.it

6 Lessons & 20+ Projects

Class
Inheritance

Validation
using API

Module 15

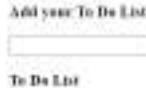

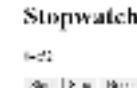

JS App Development

Learn about app development using Javascript.

Language:
JS

Platform:
Repl.it

6 Lessons & 10+ Projects

Stopwatch

To Do List

Module 16

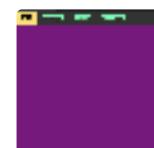

Hosting Personal Websites

Create your own website using HTML, CSS and Javascript.

Language:
HTML CSS JS

Platform:
Repl.it

6 Lessons & 2+ Projects

Top 10 benefits of learning at Codingal

1. Regular PTM

Great opportunity for parents and teachers to open two-way communication and to share insights and information for the holistic development of a child.

2. Regular doubt session

After every module solve all your queries in this personalized session. The toughest problems addressed – concepts revised and doubts cleared!

3. Engaging quizzes

Quizzes are fun and help us remember important facts. These well-targeted and tailor-made quizzes will boost self-esteem and confidence among kids.

4. Thrilling competitions

Regular competitions are conducted to encourage students to showcase their skills and develop their ideas.

5. Learning Certificates

Show the world what you can do with a certificate for every amazing skill you master.

Top 10 benefits of learning at Codingal

6. Live personalized classes

Understand concepts faster with personal attention from teachers. Learn coding from highly qualified teachers trained to make learning effective and impactful.

7. Lifetime access to class videos

Forgot what was taught in the last class? No worries. Watch the recorded class video anytime to refresh your memory.

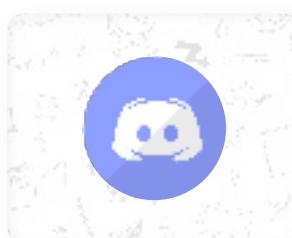

8. Lifetime access to resources

Get lifetime access to our exclusive learning content including DIY sheets, videos, and other resources.

9. Gamified learning

Codingal makes learning fun with gamification. Students can take quizzes or complete projects to earn points, badges, and rewards.

10. Community of young coders

Get access to our community of 150,000+ students to collaborate, share projects and solve real-world problems together.

Students and parents love Codingal

Gladys

Codingal Student

Codingal personalized the course for me and allowed me to learn coding at my own pace from the comfort of home.

Eva Meshack

Codingal Parent

One of a kind virtual coding system. I like the trainers and the classes designs. A well thought ideology.

Advitiya Rishikesh

Codingal Student

My teacher always goes the extra mile and explains concepts in a manner that I can understand.

Amol Sharma

Codingal Parent

Codingal's well-structured courses have made coding fun for my son. They're the best and the quickest.

Coding- Gateway to success in the future

“ ”

Now is a great time to be entering the coding world because technology will change more in the next 10 years than it has in the last 50.

- Bill Gates

“ ”

Whether you want to uncover the secrets of the universe, or you just want to pursue a career in the 21st century, basic computer programming is an essential skill to learn.”

- Stephen Hawking
